Gail N. Verified Buyer

Great face wash

Really love the cooling effect this face wash gives after swimming plus just used on holiday in the sun thoroughly recommended

Emily C. Verified Buyer

Great for post swim moisture

I use the face wash after my swim and have been really impressed. The pool chemicals usually leave my skin feeling really dry, but using the face wash helps keep my skin feel moisturised and takes the harsh dry feeling of the pool away.

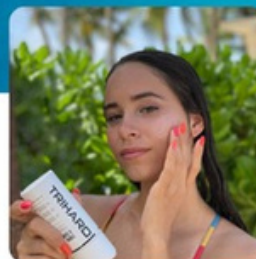

Linda L. Verified Buyer

Fantastic soothing

When I get out of the pool and wash my face with this product I use it liberally even on my chest too. It soothes the skin while it cleans but leaves my skin refreshed and ready to take on the rest of the day. I really like this product, it's my second purchase.

★★★★★

Hydrating

I love the eye gel after my swims. The skin around my eyes usually feels dry and tender but this helps alleviate and refresh the skin!

L **Larissa D.** Verified Buyer
★★★★★

Hair saver

This stuff SAVES my hair. I use it pre and post swim as recommended and my hair has already been so much softer after just three uses. I can't wait to see the long term effects on my hair!

★★★★★

Great smell great hydration

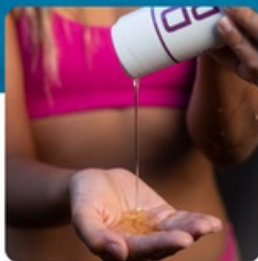

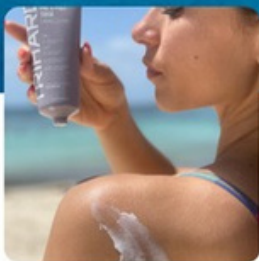

Love this lotion after my swims. It helps alleviate the chlorine scent on my arms and backs of my hands, it also keeps the skin hydrated because otherwise my skin gets dry and itchy after a swim.

★★★★★

Lovely

I love this product feels great on my skin I love how clean I feel after a swim .
